*Exporting Indian Excellence Worldwide*

## WHO WE ARE

We, at Marqveda Global Pvt. Ltd., stand at the confluence of heritage and refinement. From the serene & ancient land of Bihar, an eastern state of India, to discerning markets across the world, Marqveda Global Pvt. Ltd. bridges India's rich heritage with the world's demand for authentic, superior-quality, premium products. We live on our timeless purpose to export Indian excellence worldwide with purity and precision. Every product we curate carries the true essence of India. Meticulous craftsmanship, uncompromising quality and integrity guide our processes, partnerships, and promises.

At Marqveda, we do not merely export.  
We **elevate**. We **refine**. We **globalise** Indian excellence.

## FOUNDER'S SECTION

**"India produces unmatched premium products, but the world has not always seen it that way."**

Marqveda Global Pvt. Ltd. was founded to change that perspective. Our idea is to build a global business house that represents premium Indian products at world-class standards. An organization that treats quality not as a goal, but as a discipline. A brand that stands for trust, transparency, and global credibility.

At Marqveda, we are committed to **"Exporting Indian Excellence Worldwide"** – not just in words, but in every process, partnership, and product we deliver to our valued customers. Thank you for your continued trust in us.

**Mr. Himanshu Kumar Singh**  
Founder & MD,  
Marqveda Global Pvt. Ltd.  
MBA (International Business)  
Indian Institute of Foreign Trade,  
New Delhi

## CORE VALUES

- **Quality** Without Compromise
- **Customer-First** Partnerships
- **Integrity** in Every Commitment
- **Transparency** Through Trust

## OUR PRODUCTS

### Phool Makhana (Fox Nuts)

We supply premium export-grade Raw Phool Makhana (also known as Fox Nuts /Gorgon nuts/Euryale ferox seeds) worldwide, sourced from the Mithila region of Bihar, natural home to the world's purest & authentic Makhana. It's a Superfood, naturally gluten-free, low-fat, vegan, good source of fibre & plant-based protein which makes it in high demand globally. Each batch is graded with precision and packed for global markets, trusted by importers, wholesalers, FMCG companies and private-label buyers.

### From Pond to Pack : The Makhana Journey

**Harvesting**  
Gathering Phool Makhana

**Transport**  
Bringing Seeds to Plant

**Drying**  
For moisture reduction

**Packaging**  
Sealed in food-grade packs

**Sorting**  
Picking & Grading

**Processing**  
Roasting & Popping

## WHY TRUST US

- **100% Authentic** Indian Origin
- **Export-Grade Purity**
- **Stable** Supply Chain
- **Consistent Batch Quality**

# Makhana Grade Classification

(Based on Suta\* & mm measurement)

3 Suta	4 Suta	5 Suta	6 Suta	7 Suta
				
(<12 mm)	(12 -15 mm)	(15-18 mm)	(18-21 mm)	(>21 mm)
Economy Grade (S)	Super Grade (M)	Premium Grade (L)	Royal Grade (XL)	Jumbo Grade (XXL)

\*1 Suta = 3.175 mm. Historically, traders used a threaded string ("Suta" in Hindi) to measure the number of makhana pieces that fit in a line. Over time, this became a standard grading unit, still in practise in Makhana (Fox nuts) industry in India. Above images are for illustration purpose only.
